I am asking our Corporate Office to look for it in the records. I would not have it in my office due to the age.

Thanks, all good.

What I need is the original CMS, not the additional/supplemental.

If we don't have it and Amphenol doesn't have it, do you think it may not exist?

Carolyn

1. I will defer to Joe and their legal department regarding this question.
2. I only have a digital copy of the Nov 19, 1996 Additional Corrective Action Measures Study and it is watermarked Draft. Is this the same one you have in your files?
3. We will coordinate with Amphenol regarding this request and then get back with you regarding this request.
4. This questions pertains only to Amphenol, so I will let Joe/Amphenol answer that question.

Please let me know if you have further questions.

Sincerely,

Bradley E. Gentry, LPG

Subject: Amphenol Topics

Hi –

A few items:

1. We are planning a public meeting in the form of an information session for Dec 5 in Franklin at a junior high school.

As the meeting is just now taking shape, I don't have too many details yet. However, I will be making a presentation of the data.

If you agree, would please ask your legal department whether any of the photographs taken during IWM's data collection can be used in a PowerPoint presentation?

At this time, we also plan to use some of the IWM figures in the presentation.

2. I have been unable to locate the original CMS document – have only found the Supplemental CMS. Would you have an e-copy that you could send me?
3. As discussed with Brad yesterday, EPA will meet with Franklin to discuss the soil gas and sewer gas results in advance of the City's planned sewer repairs which are scheduled for Nov 5. The meeting is currently scheduled for Oct 5 at 9:00 am in the Mayor's office. We hope that Amphenol and IWM can attend the meeting.
4. We have been sending via certified mail the CA letters to Matt Kupcak FPP/Borg Warner but have hand no response from him except for the CM receipts. We would like to understand the relationship/status of BW to Amphenol which has been characterized as the responding or responsive RP. If that is best done first in a phone call, we would invite our attorney to participate, but eventually we would need something in writing.

Thanks.

Carolyn
